REPORT OF LIBRARY TRUSTEES.

The library building should be shingled and painted soon.

By the kindness of the librarian, we have been able to procure for the library a crayon portrait of the late S. S. Griffin, who donated the library and museum to the town, for the small expense of a frame.

Reference is made to the librarian's report for particulars relating to matters concerning the library the past year.

The trustees in behalf of the town respectfully acknowledge all favors received.

Deming of Boston, a friend of our library, recently noticed the need of reference books and has sent to the library Cram's Universal Atlas, Geographical, Astronomical and Historical, from 986 to 1900. The gift is timely and generous and will be greatly appreciated. A number of small books purchased for the children and those given by Mrs. Fling are not mentioned in the catalogue as their titles might be misleading to patrons sending for books by number. One volume of state papers and the history of Fifth N. H. R. was omitted in last year's catalogue. Three or more periodicals, including Success and Review of Reviews, will be ordered for 1902.

MUSEUM.

Amount received from visitors, $6.00. Donations: framed picture of the road machine and its working force, F. P. Reid; books on relics, Winifred Gilbert, Shirley Prescott; coral, Mrs. G. E. SCHOOL REPORT

FOR THE YEAR ENDING AUGUST 1, 1901.

To the Citizens of Auburn:

The following is presented as the annual report of the School Board of Auburn:

Seven schools were taught in town during the spring term, and six during the fall and winter terms; the pupils in No. 5 being transported to No. 1, as there was not a sufficient number to warrant running both.

The schools in Nos. 6, 7 and 8, were closed early in the winter term as, owing to rough weather, a sufficient number could not attend to render it practicable to run them longer.

Your board decided early in the spring that a new supply of school books was imperatively needed throughout the town. Accordingly, we purchased an entire new supply of Readers, Arithmetics, Geographies and Histories and placed several of Rand McNally & Co's Maps in each school room. This has made our book and supply bill larger than usual, but if the books are properly cared for, it will be several years before it will be necessary to replace them. We are glad to say that on the whole, the scholars are very careful in the use of these books.

We have been much pleased with the work of our teachers and believe they have done their work faithfully and well.

We notice, on some of the registers, names of pupils who have a larger number of absent marks against them than seems to be necessary, and would urge upon parents the importance of regular attendance, if the pupil is to get the greatest amount of good from our schools.

Closets, to hold school books, etc., when not in use, have been placed in each of the school rooms as lacked them. Blackboards have been replaced in two houses. No. 2 school room has been replastered and repapered and a fence built around the yard. There have been a large number of

small repairs made, such as papering, shingling, locks, new thresholds, stovepipe, seats, etc. Stock is on hand to repair the foundations of such houses as need it.

The statistical table attached to this report will show the number of weeks taught in each school, together with other information.

Number of children between five and sixteen years of age enumerated, 104. Girls, 56. Boys 48.

Number of pupils registered, 113 Girls, 58. Boys, 55.

Number under five years of age attending school, 5. Girls, 3. Boys, 2.

Number attending school over sixteen years of age, 4. Girls, 2. Boys, 2.
